*Making A Difference*

123131

## **Two of my dogs are certified Therapy Dogs volunteering at Lee Memorial Hospital**

Every Wednesday afternoon, Misty, Willow, and I visit the hospital, hopefully to brighten someone's day and help them through a difficult time.

It's amazing how easy a smile comes to the patients' faces when they see a dog walk through the door. We visit the out-patient Chemo unit and the conversation turns to dogs and pets for 20 minutes. And when we visit the physical therapy unit, everyone reaches out to pet the dogs. And of course, the dogs just eat it up, they love the attention.

It makes a great difference to each patient even if just for a few minutes.
